 Tip

You may not be able to access all of the features noted in this document. planwith**ease**.com will only show you the features and transactions your Plan Sponsor has chosen to offer under their plan document and/or through planwith**ease**.com.

If you have questions, or need assistance with information not covered in this guide, please contact us at 855-464-6928 or customerservice@planwithease.com.

If you do not see your Investment Provider/Account listed, some companies have decided that they will no longer provide investments for 403(b) plans, or cannot agree to provide the required electronic sharing of data needed to facilitate compliance with the IRS Regulations. planwith**ease**.com will not be able to provide approval services for these companies and no account data from these companies will appear on planwith**ease**.com.

If you currently have an account with such an Investment Provider, you will need to work directly with your Plan Sponsor to make any changes or authorize any transactions for that account.

Investment Provider and/or Contribution Changes

The following steps show how to change the Investment Provider(s) who receives your contributions or to change your Salary Reductions, if these transactions are allowed online by your Plan Sponsor. If your Plan Sponsor chose the On-line or Fillable option for your Salary Reduction Agreement, the steps below must be completed. If the Printable option was chosen, you will need to print out the form to be filled out and returned to your Plan Sponsor.

If the name of your current Investment Provider does not appear as an option, that company is not providing data to planwithease.com and no changes for that Investment Provider may be processed through planwithease.com. You will need to work directly with your Plan Sponsor to make any changes for that account.

Contribution Changes/Investment Provider Elections

1. On main menu, select **Manage Investments** and then **Get Started** under **Change Elections**.
2. Select the available source for the contribution you want to change (e.g., pre-tax, Roth) by way of the **Edit** option offered below the source.
3. In the Action column, select the action for each money source.

Item	Description
No changes	No changes will be made to the specified money source.
Stop Contributions	Used to stop existing contributions to a specified money source.
Change Contributions	Used to change an existing deferral or to start a new deferral to a specified money source.

NOTE: If you currently have deductions from your pay that are not displayed on this screen in the “Current Contribution Rate” field, you will still need to select “Change” to change the amount, or “Stop Contributions” to stop an existing deduction. Your payroll office will have the proper information in their system. If you have made changes to your deductions prior to February 13, 2011, it will not be displayed here. Going forward, your changes will be stored and displayed here.

4. Next, select either Dollar Amounts or Percentages (if applicable) for the type of deduction you want for each money source, either Percent or Dollar if your plan allows both options. If your plan only allows one or the other, their selection will be displayed as not selectable.
5. In the New Contribution Rate field (which will be labeled as the money source being changed, e.g., Roth, Pre-Tax, etc.), enter the amount or percent of the election you wish to have deducted from your pay each pay period.
6. Input the effective date (mm/dd/yyyy), or select to choose the date from the calendar. Changes may not be effective immediately, depending upon when your employer’s payroll department implements the requested change. Please allow for at least one payroll cycle for the change to take effect. **NOTE:** The dates MUST be the same in both the Contribution Elections and Investment Elections portions of the screen.
7. If more than one money source is available, this process will be repeated until you’ve made elections to each option.
8. Select the Investment Provider(s) and, if available, the Contract Number for the allocation changes by clicking (>) next to the Investment Provider.

If your investment provider has submitted a data file to planwith**ease**.com with your contract information, it will appear here. If this is a new contract or the investment provider has not yet submitted planwith**ease**.com data, you may click on the [+ Add Contract](#) button to add a contract. Type in the Contract Number, if known. Otherwise, you may leave the word “New” in the box.

9. Enter the whole number percentage to be directed to each Investment Provider in both the New IP Election and New Contract Election field.

If you are allocating funds to more than one Investment Provider, the allocation percentage must equal 100% across all Investment Providers. In addition, if you have more than one contract within an Investment Provider, the allocation percentage must total 100% under that specified Investment Provider.

Investment Provider	Current IP Election	New IP Election	Contract Number	Current Contract Election	New Contract Election	Action

10. Click on the checkbox beside “I authorize the investment election changes to this money source” for each money source, in order to record your elections and move to the next step. A “Reset Investment Elections” button is available to clear election changes made in error.

11. Select the **Next** button.

12. Review the request and select **Submit**, **Go Back** or **Cancel**.

Selecting **Cancel** will clear any changes and take you back to the **Manage Investments** page and selecting **Go Back** will return you to the previous page.
